次の文章を読み、設問に答えなさい。

A and B are talking in a classroom in Nagano Nishi High School.

A: Hey, your T-shirt is really cool!

B: I got it *online. It is made from old PET bottles and recycled *cotton. Can you believe it?

A: Wow! *You mean it is all made from recycled materials?

B: Yes. Also, the factory which makes this T-shirt has *a unique system. When we buy a T-shirt, we pay *extra money for every shirt. That money goes *directly to the workers at the factory, and they can decide how to use it. I think buying this T-shirt can help people who work in the factory.

A: That's great!

B: You can still buy the shirt. Why don't you get it, too?

A: Well, actually, I don't like buying clothes online. I want to see the color of the real things and feel the *texture. Of course, I want to try them on before I buy them.

B: I see. But if you use the Internet, I think you'll have more *options. What do you think about studying online? Because of covid-19, we sometimes have to stay home and study online. I think we can do many things if we use the Internet.

A: That's true. But I like meeting my friends and teachers face to face at school better than meeting online. *I don't want my school to be closed.

B: Well, you are very *old-fashioned. If we study online, we can have more time because we don't need time to go to school. We can use that time to do other things we like.

A: You are right. But when I study at school, it's easy to communicate with other classmates and teachers. For example, I can see everyone, talk with my classmates about difficult problems and ask questions. It's easier for me to study with friends and teachers around me. I feel more relaxed. It's just hard for me to do it through the screen.

B: Well, I guess each has *its own advantages.

A: Right. We can't say which is better.
